LinkedIn: Udayveer Singh Chaudhary
Email: udaychaudhary0029@gmail.com
Github: github.com/Uday029
Mobile: +91-9053551470

Skills

Languages: C, C++, Python, Java, JavaScript, SQL
Frameworks: HTML and CSS, Numpy, Pandas, Matplotlib, Scikit-learn
Tools/Platforms: Git, GitHub, VS Code, MS Excel, Power BI, Jupyter Notebook, Hadoop, Autocad
Soft Skills: Problem-Solving, Time Management, Leadership, Adaptability

Projects

Student Outcome Prediction – Machine Learning Project | Link *September 2025 – December 2025*

- Developed an end-to-end machine learning model to predict student outcomes (Graduate, Dropout, or Enrolled).
- Compared ML models (Logistic Regression, Decision Tree, Random Forest, SVM, KNN) selecting Random Forest.
- Deployed Streamlit dashboard with live predictions, feature importance visualization and SHAP explainability.

Tech: Python, Machine Learning, Streamlit, SHAP, Numpy, Pandas, Matplotlib, Scikit-learn

Bank Management System – LPU | Link June 2025 – *July 2025*

- Developed a C++ Bank Management System to manage account creation, deposit, withdrawal and balance inquiries.
- Implemented Object-Oriented Programing concepts and file handling to store and retrieve customer account data.
- Designed modular functions to improve transaction processing, code readability, and overall system efficiency.

Tech: C++, OOP, File Handling

E-commerce Website – InternsElite | Link *June 2024 – August 2024*

- Developed a responsive e-commerce website using HTML, CSS, and JavaScript during web development training.
- Implemented product pages, shopping cart functionality, and structured navigation to enhance user experience.
- Applied UI/UX design principles to create an interactive, user-friendly and visually appealing web interface.

Tech: HTML, CSS, JavaScript, UI/UX Design

Training

Lovely Professional University- Summer Training | Link *May 2025 – July 2025*

C++ Training

- Completed academic training in C++ programming focusing on OOP concepts and problem-solving techniques.
- Implemented file handling and class-based structures to manage structured data more efficiently and effectively.
- Developed Bank Management System project to apply advanced C++ concepts and logic in a real-world scenario.

Tech stack used: C++, OOP, File Handling

InternsElite – Web Development Industrial | Link *June 2024 – August 2024*

Web Development Training

- Completed industrial training in web development covering HTML, CSS, JavaScript, and core UI/UX fundamentals.
- Built a responsive e-commerce website implementing modern front-end design and development practices.
- Gained practical experience in web page structure, styling, and modern interactive user interface development.

Tech stack used: HTML, CSS, JavaScript, Ui&Ux

Certificates

- Java Programing Language – I am Neo | Link *May 2025*
- C Programing Language – Cipher School | Link *May 2024*
- 7 days bootcamp Deep Learning And Deployment on Web – Devtown | Link *February 2024*
- Responsive Web Design – freeCodeCamp | Link *November 2023*

Achievements

Participated in InnovateX – 24 Hours Hackathon (PentaoMnia Club) | Link *March 2024*

Cleared Round 1 in a 24-hour coding hackathon organized by Student Organization PentaoMnia, LPU.

Participated in HackWithVertos 1.0 – 24 Hours Hackathon (Echo Club) | Link *February 2024*

Successfully completed a 24-hour hackathon and secured a position in the Top 10 among participants.

Education

Lovely Professional University *Punjab, India*

Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.26*** *August 2023 - Present*

Nehru Senior Secondary School *Mandi Dabwali, Haryana*

Intermediate; ***Percentage: 84.6*** *April 2021 - March 2022*

Adarsh Senior Secondary School *Lakhuana, Haryana*

Matriculation; ***Percentage: 90.8*** *April 2019 - March 2020*
